evanwcrow@gmail.com

Portland, OR

## PROFILE

Developed and released multiple apps to the Apple App Store, some featured. iOS Engineer at Neeva and TravSolo. Co-founder Ferdasoft LLC; develop, the iOS app, Nome, along with the company website. Self-starter, skilled at completing tasks at a quick and effective pace and learning new skills on the go.

## EXPERIENCE

### NEEVA (2021 - PRESENT)

#### IOS ENGINEER

Work efficiently with team members to develop the Neeva iOS application. Use Swift and SwiftUI to develop innovative features to drive user retention and acquisition. Create automated tests in Xcode for continuous integration and bug prevention. Use GitHub to work collaboratively and review code with fellow developers. Also work across the company with teams in web development, design, and support.

### TRAVSOLO (MAY 2021 - SEPT 2021)

#### IOS DEVELOPER

Took over the development of the TravSolo app, and created brand new features and revenue-generating streams (subscriptions). Used Swift, UIKit, Firebase, and REST APIs to build new in-app frameworks that can be re-used. Worked directly with the CEO, and met with investors to raise funding.

### FERDASOFT LLC (2020 - PRESENT)

#### CO-FOUNDER & HEAD OF DEVELOPMENT

Developed and continue to maintain iOS, CarPlay, WatchOS applications as well as design the UI for them. Develop using Swift and other libraries such as UIKit, CoreLocation, MapKit. Work with Apple to get Nome featured on the Apple App Store. Also, design icons, logos, and promotional materials.
