WORK EXPERIENCE

Apple

Software Engineer

Summer 2024; May 2025 – Dec 2025; May 2026 – Present

Cupertino, California

Stealth Startup

Founding Engineer

January 2026 - April 2026

Remote

- Built the product end-to-end: agentic systems, native applications, web platform, backend infrastructure, and developer SDKs.
- Architected the production system including agent swarms, persistent state, real-time event delivery, isolated agent execution sandboxes, and the multi-language SDK surface.
- Designed the core primitives powering autonomous agents: scheduling, cost governance, approval workflows, persistent memory, and tool integration.

Exa.ai

Member of Technical Staff

October 2024 - April 2025

San Francisco, California

- Built Exa's /answer endpoint for RAG-based search result generation, setting a new industry benchmark with the first 90%+ SimpleQA score, surpassing OpenAI, DeepSeek, and Perplexity.
- Full-stack engineering for Exa Websets, an AI-driven platform for sourcing and verifying high-quality lists of people, companies, articles, and research, including criteria filtering, AI-powered enrichment, and real-time data verification.
- Developed large-scale crawling and spider-crawling frameworks to index billions of URLs, forming the backbone of Exa's AI-powered search platform.

Snowflake

Software Engineer Intern

June 2023 – December 2023

San Mateo, California

- Youngest engineering intern at Snowflake; contributed across ML, Data Marketplace, Data Modeling, and Data Query teams. Founding engineer on Snowflake Notebooks, the company's ML and data-analysis platform.

Neeva

Software Engineer

May 2021 – May 2023

Remote

- Core development work on the world's first generative-AI search application, utilizing RAG and building a unique, intuitive user experience for seamless AI-driven search interactions.
- Led iOS development on Neeva mobile browser; shipped to the App Store with 1000+ 5-star reviews.

Ferdasoft

Founder & Head of Engineering

March 2020 – May 2023

Portland, Oregon

- Founded and led the development of Nome—Music & Maps, a multifaceted application for iOS, WatchOS, CarPlay, and Web that was recognized by the Apple App Store in "Our Favorites" and "Hot New Apps."

EDUCATION & AWARDS

Northeastern University

BS, Computer Science & Economics

Expected Graduation Fall 2026

Huntington 100

2026

- Northeastern's highest undergraduate honor, awarded annually to 100 students for exceptional leadership, entrepreneurship, impact, and academics.

Apple Swift Student Scholarship

2022

- Developed innovative accessibility software enabling device control through head and eye movements using Computer Vision and Machine Learning. Publicly released with iOS and iPadOS 18.

SKILLS & INTERESTS

- **Skills:** TypeScript; React; Node.js; AI/ML; Swift; SwiftUI; search; agentic platforms; architecture design; UX design.
- **Interests:** Skiing; hiking; programming; quantitative finance; economics; design; music; volunteering; traveling.
